

**1** Poles screw onto steel bases.

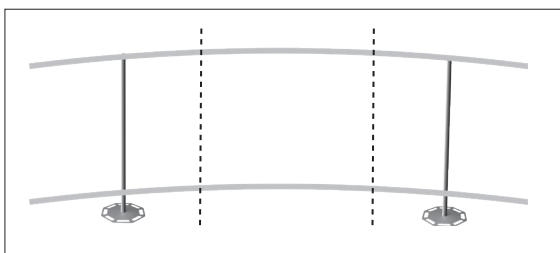

**2** Mount the connectors on the profiles.

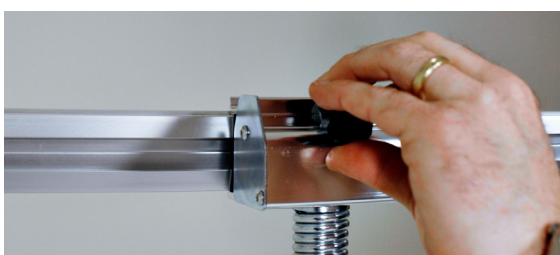

**3** Click the profiles at the top of the poles...

**4** ... and at the bottom.

**5** Make sure the upper and lower profiles are parallel to each other with the help of the marks on the profiles.

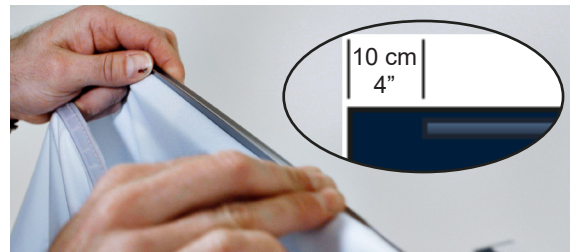

**6** Fasten the profiles with the screw.

**7** Mount a fabric end holder on each side.

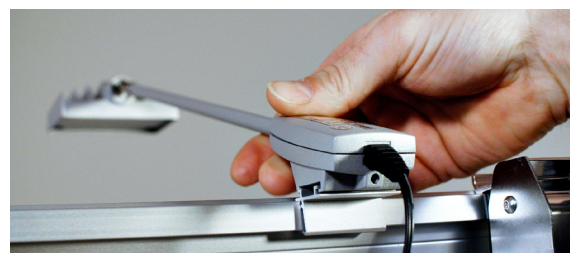

**8** Drape the fabric.

**9** Press the plastic strip into the upper track of the profiles. Leave 10 cm/4 inches on each side for the fabric end holders.

**10** Fold the graphic around the sides and fasten it with the fabric end holders.

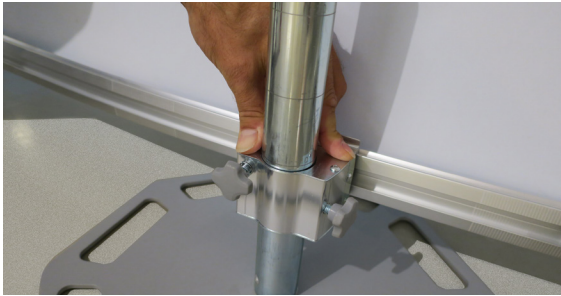

**11** Mount the lights.

**12** Pull up the telescopic pole to the requested height. Use the markings on the poles to assist with alignment.

**13** Press the plastic strip into the lower track of the profiles. This is easiest done from the back of the system. Make sure the graphic hangs straight.

**14** Stretch the graphic with the lower fastener.

**15** Pack the lid and bags into the box and place the top shelf on top.

**16** Wrap the panel around the box.

Ready!

## SET UP INSTRUCTION FABRIC SYSTEM

The set up is also available as movie at
